

ERP SPADER

FarmaX

A spader specially designed for use with light tractors with a capacity of 20 to 35 HP.

Video clip

The Farmax ERP is a spader for light tractors. The great manoeuvrability and low integral weight of the ERP make it highly suitable for use in greenhouse horticulture, flower cultivation and tilling small plots.

Apart from giving perfect rotavation, the popularity of the Farmax ERP is mainly attributable to its ease of operation and sturdy design.

Uninterrupted rotavation

The ERP is fitted as standard with skimmers to prevent the tilled soil from clogging the machine. The machine can be combined with a rotary harrow.

ERP SPADER

FarmaX

Drive: Single-sided chain transmission

Tractor power: 20 to 35 HP

Power take-off revs: 540 r.p.m.

Advantages

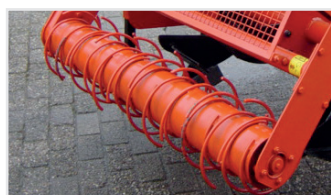

- low power requirement, so suitable for small tractors
- highly manoeuvrable, even in small spaces
- easy to operate
- sturdy, low-maintenance design
- improved yield thanks to improved soil structure

Also available without rotary harrow

With light transmission case

Rotary harrow ensures an optimum bed for sowing

Mechanical adjustment of the rotary harrow

Technical Data

| type | operating width | max. operating depth | standard weight | required power kW/HP | number of spades |
|---------|-----------------|----------------------|------------------|----------------------|------------------|
| ERP 90 | 35.43" - 90 cm | 17.72" - 45 cm | 573 Lbs - 260 kg | 13/18 | 12 |
| ERP 105 | 41.34" - 105 cm | 17.72" - 45 cm | 650 Lbs - 295 kg | 15/20 | 12 |
| ERP 125 | 49.21" - 125 cm | 17.72" - 45 cm | 760 Lbs - 345 kg | 16/21 | 12 |
| ERP 140 | 55.12" - 140 cm | 17.72" - 45 cm | 870 Lbs - 395 kg | 21/28 | 12 |
| ERP 155 | 61.02" - 155 cm | 17.72" - 45 cm | 992 Lbs - 450 kg | 22/30 | 12 |
